Air Handling Products

TRI-ARM AND QUAD-ARM BRACKETS

- Designed for the HVAC industry for accurate positioning of the shaft and blower wheel
- Self-centering and self-aligning design
- Available as a tri-arm or quad-arm
- Five bearing socket sizes offered
- Completely customizable arm length and strength

MOTOR MOUNTS

- Each includes rubber footings
- Can be assembled and mounted on the motor in the same operation, often faster than a preassembled mount
- Assembly fixture is manufactured to meet any belly band size
- Belly band surrounding the motor is available in over 40 sizes

CUSHION PILLOW BLOCK MOUNTED BEARINGS

- Precision bored
- Customizable
- Self-aligning ball and socket design that compensates for surface irregularities and misalignment

AVAILABLE

- Variety of sleeve bearing sizes
- Oil cups or grease lubricant fittings
- Galvanized or stainless steel

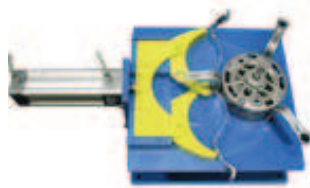

CUSHIONS

- Manufactured from soft, 50 durometer, synthetic rubber
- Resistant to oil, grease, oxidation or aging
- Prevents static electricity and suppresses sound and vibration

MOTOR MOUNT ASSEMBLY FIXTURE

- Installs the motor mount to the motor
- Can be adjusted to fit assembly based on the length of the belly band

MOTOR MOUNT CUSTOMIZATION

- Can be configured in length and gauge to accommodate nearly any fan blade diameter
- Special order ferrules and rubber footings available depending upon the vibration isolation needs
